

Trella Health AutoPay Program

Trella Health now offers AutoPay! To reduce paper waste and to keep costs low for customers, Trella Health now requires non-annual customers to enroll in AutoPay. Enrollment is simple and only takes a few minutes!

Trella Health utilizes SaasOptics and Stripe to provide an online platform for customers to make a payment via debit/credit card or bank account. This information is then saved over a secure network to be used for all future billing.

To enroll in AutoPay, open your invoicing email and select the green “View and Pay Online” button. This will bring you to your e-invoice landing page, where you can provide payment information.

For all future invoices, reminders will be emailed 15- and 5-days before the invoice’s due date to provide ample time to make adjustments to billing details as needed.

For any further questions, please email accounting@trellahealth.com.
